

JOHNS HOPKINS
CENTER *for* HEALTH EQUITY

Johns Hopkins Center for Health Equity Faculty Available for Trainees

2023-2024

Lisa Cooper, MD, MPH,
Director

Center Faculty

- Rexford Ahima, MD, PhD
- Denis Antoine, MD
- Larry Appel, MD, MPH
- Mary Catherine Beach, MD MPH
- Wendy Bennett, MD, MPH
- Jackie Bhattarai, PhD, MS
- Lee Bone, RN, MPH
- Kelly Bower, PhD MSN/MPH RN
- Janice Bowie, PhD, MPH
- Kathryn Carson, ScM
- Yvonne Commodore-Mensah, PhD RN
- Jeanne Charleston, PhD
- Deidra Crews, MD, ScM
- Thomas Cudjoe, MD, MPH
- Gail Daumit, MD, MHS
- Cheryl Dennison-Himmelfarb PhD, RN
- Roland Faigle, MD PhD
- Oluwaseun Falade-Nwulia, MBBS, MPH
- Sherita Golden, MD MHS
- Kimberly Gudzone, MD, MPH
- Raquel Greer, MD, MHS
- Kim Gudzone, MD, MPH
- Felicia Hill-Briggs, PhD
- Yea-Jen Hsu, PhD
- Chidinma Ibe, PhD
- Risha Irvin, MD, MPH
- Theodore “Jack” Iwashyna, MD, PhD
- John Jackson, ScD
- Fabian Johnston, MD
- Jill Marsteller, PhD, MPP
- Seth Martin, MD, MHS
- Lena Molly Mathews, MD MHS
- Edgar R. Pete Miller, III, MD, PhD
- Chiadi Ndumele, MD MHS
- S. Michelle Ogunwole, MD PhD
- Eliana Perrin, MD, MPH
- Tanjala Purnell, PhD, MPH
- Somanath Saha, MD, MPH
- Erica Shelton, MD, MPH
- Nakiya Showell, MD MPH
- Nae-Yuh Wang, PhD
- Kristina Weeks, MHS
- Jessica Yeh, PhD

JOHNS HOPKINS
CENTER *for* HEALTH EQUITY

CENTER DIRECTOR AND ASSOCIATE DIRECTORS

Lisa A. Cooper, MD, MPH

Bloomberg Distinguished Professor, SOM and BSPH

James F. Fries Professor of Medicine

General Internal Medicine

Director, Johns Hopkins Center for Health Equity

- **Content Areas of Interest:** Cardiovascular Disease, Depression, Health Disparities, Hypertension, Patient-Centered Care, Patient-Physician Communication and Relationships, Social Epidemiology
- **Trainee Opportunities:**
 - RICH LIFE Project publications (secondary data analysis)
 - Assist with slides for health equity presentations
 - Prepare tables and figures for manuscripts
 - Literature reviews
- **Desired Trainee Education Level:** Doctoral students, post-doc fellows
- **Paid or Unpaid:** Dependent on project

JOHNS HOPKINS
CENTER *for* HEALTH EQUITY

Cooper Current Research Projects

- RICH LIFE Project
- Various educational projects, evidence or policy reviews on health equity topics
 - Opportunity to assist with slides for presentations to various stakeholder groups, commentaries, or Op-Eds
 - Opportunities to assist with development of educational materials for health equity training programs
 - Literature reviews on health equity topics and on policy implementation and to identify evidence gaps and develop recommendations for research, practice, and policy change

Deidra Crews, MD ScM

Associate Director for Research Development,
Associate Professor of Medicine, Division of Nephrology
Associate Vice Chair for Diversity and Inclusion, Medicine
Deputy Director, Johns Hopkins Center for Health Equity

- **Content Areas of Interest:** Kidney Disease, Social Determinants of Health, Hypertension
- **Trainee Opportunities:**
 - Experiences collecting data
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
 - Clinical shadowing
- **Desired Trainee Education Level:** Medical students, residents, graduate students, post-doctoral, junior faculty
- **Paid or Unpaid:** Unpaid

Crews Current Research Projects

- Five Plus Nuts and Beans for Kidneys
- Collaborative work with the HANDLS Study
- Study of disparities in vascular access for dialysis

Kathryn 'Kit' A. Carson, ScM

Associate Director for Methods and Shared Resources,
Johns Hopkins Center for Health Equity
Senior Research Associate, Department of Epidemiology,
Bloomberg School of Public Health

- **Content Areas of Interest:** Biostatistics, Study Design
- **Trainee Opportunities:**
 - Guidance in data analysis
 - Creating tables and figures for publication
 - Experience with data management activities, e.g. creating a database (REDCap), validating and cleaning data, creating reports, generating descriptive statistics
- **Desired Trainee Education Level:** Masters students
- **Paid or Unpaid:** Unpaid

Carson Current Research Projects

- RICH LIFE Project
 - Manuscript writing phase
- Five Plus Nuts and Beans

Chidinma A. Ibe, PhD

Associate Director for Stakeholder Engagement,
Johns Hopkins Center for Health Equity
Assistant Professor of Medicine, Johns Hopkins
University

- **Content Areas of Interest:** Cardiovascular Disease, Social Determinants of Health, Community-Based Participatory Research, Community Health Workers
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Ibe Current Research Projects

- AFFIRME Project
 - Focuses on development and implementation of community health worker-delivered intervention in a pediatric population
- K01 Award
 - Barriers and facilitators of CHW's integration into care teams from an interdisciplinary science perspective

JOHNS HOPKINS
CENTER *for* HEALTH EQUITY

CENTER CORE FACULTY MEMBERS

Denis Antoine, MD

Director, Center for Addiction and Pregnancy (CAP), Johns Hopkins Bayview Medical Center

Assistant Professor of Psychiatry and Behavioral Sciences
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Depression or Other Mental Illness, Social Determinants of Health
- **Trainee Opportunities:**
 - Surveying patients on their social support needs
 - Retrospective analysis of patient outcomes for pregnant patients with substance use disorders (SUD)
 - Retrospective evaluation of treatment placement for persons with opioid use disorders in EDs
 - Longitudinal prospective analysis treatment outcome of homeless women with SUD
- **Desired Trainee Education Level:** Undergraduate, Masters and Doctoral students
- **Paid or Unpaid:** Unpaid

Antoine Current Research Projects

- Faith/Health interfaces in community settings
 - Primary care offices, churches, barbershops
- Increasing social support in substance use disorder treatment
- Longitudinal treatment outcomes for homeless persons with substance use disorders

Lawrence Appel, MD

Director, Welch Center for Prevention, Epidemiology, and
Clinical Research

C. David Molina, MD, MPH Professor of Medicine
Johns Hopkins School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Chronic Kidney Disease or Kidney Transplantation, Hypertension, Social Determinants of Health
- **Trainee Opportunities:**
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Appel Current Research Projects

- Resolve to Save Lives (Global Hypertension Control Initiative)
- Chronic Renal Insufficiency Cohort (CRIC) study
- DASH4D
 - Blood pressure in persons with diabetes
 - Feeding study of the DASH diet and sodium reduction

Mary Catherine Beach, MD, MPH

Professor, Department of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** patient-clinician interactions and communication, respect as manifest through language in healthcare
- **Trainee Opportunities:**
 - Experiences collecting data
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Beach Current Research Projects

- Hidden in Plain Sight
 - Examining stigmatizing language in medical records
- MARIPOHSA (Maximizing Respect and Improving Patient Outcomes in HIV and Substance Use)
 - Examining quality of patient-clinician communications in HIV care
 - Observational dataset of >1500 audio-recorded patient-clinician encounters in HIV care linked to survey and outcome data

Wendy L. Bennett, MD, MPH

Research Director, General Internal Medicine

Associate Professor of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Depression or other mental illness, Diabetes, Hypertension, Obesity, Social Determinants of Health, Maternal and Child Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Undergraduate, Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Bennett Current Research Projects

- Healthy for Two Healthy for You (H42H4U)
 - P-50 study, home visiting
 - R-18 study, pre-natal care settings

Jagriti 'Jackie' Bhattarai, PhD, MS

Assistant Professor, Department of Physical Medicine and Rehabilitation

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Depression or other mental illness, Social Determinants of Health, Multiple Sclerosis
- **Trainee Opportunities:**
 - Secondary analysis of data
 - Presentation of research analysis
 - Contribute to manuscript publication
 - Conducting focus groups and individual interviews
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Bhattari Current Research Projects

- Patient Experiences with Care in Multiple Sclerosis (PEC-MS)
- Place, Race and the Healthcare System: A Pathway Toward Patient Engagement in MS
- Racial Disparities in MS Quality of Care

Kelly M. Bower, PhD, MSN/MPH, RN

Associate Professor

Associate Director, Johns Hopkins Urban Health Institute

Associate Professor

Johns Hopkins School of Nursing

- **Content Areas of Interest:** Obesity, Social Determinants of Health, Maternal Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Undergraduate, Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Bower Current Research Projects

- Healthy for Two Healthy for You (H42H4U)
- Maryland Maternal Health Innovation Program (MDMOM)

Thomas K.M. Cudjoe, MD, MPH

Co-Director, Medicine for the Greater Good

Robert and Jane Meyerhoff Endowed Assistant Professor

Department of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Social Determinants of Health, Subsidized Housing, Human Centered Design, Home-Based Medicine, Aging/Older Adults, Artificial Intelligence
- **Trainee Opportunities:**
- **Desired Trainee Education Level:** Masters and Doctoral Students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Cudjoe Current Research Projects

- Identifying and Addressing Social Isolation among Older Adults Living in Subsidized Housing CAPABLE Care + Connect
 - Leveraging human centered design to test feasibility of implementing CAPABLE in home-based primary care
 - Utilizing technology and AI approaches to facilitate independence and resilience in older adults
 - Detection of elder mistreatment through emergency care technicians- revised for primary care (DETECT-RPC)

Gail Daumit, MD, MHS

Vice Dean for Clinical Investigation

Samsung Professor of Medicine, Department of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Depression or other mental illness, Diabetes, Hypertension, Obesity, Social Determinants of Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
 - Ongoing DECIPHeR project implementing cardiovascular risk reduction intervention in mental health programs
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Daumit Current Research Projects

- ALACLARITY Center
 - Center to Accelerate Translation of Interventions to Decrease Premature Mortality in Serious Mental Illness
 - ACHIEVE: Adapting an Evidence-Based Weight Management Intervention and Testing Strategies to Increase Implementation in Community Mental Health Programs
 - IMPACT: Promoting Evidence-Based Tobacco Smoking Cessation Treatment in Community Mental Health Clinics
 - RHYTHM: Care Coordination for Heart Disease Risk Factors in Health Homes
 - Methods Core
 - Systems Science, Quantitative Methods, Motivational Interviewing
- DECIPHeR
 - Achieving Cardiovascular Health Equity in Community Mental Health: Optimizing Implementation Strategies
 - Leverages national expertise in cardiovascular risk reduction interventions, implementation science, and community and state policymaking to enhance uptake of evidence-based interventions to prevent cardiovascular disease among persons with serious mental illness, through strong community partnerships that are enhanced using novel implementation science strategies

Cheryl Dennison-Himmelfarb, PhD, RN, ANP, FAAN, FAHA, FPCNA

Vice Dean for Research

Sarah E. Allison Professor of Nursing

Johns Hopkins University School of Nursing

- **Content Areas of Interest:** Cardiovascular Disease, Hypertension, Social Determinants of Health, Community Engagement
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Undergraduate, Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Dennison-Himmelfarb Current Research Projects

- LINKED-HEARTS
- CEAL
- ICTR Community and Collaboration Core and Recruitment Innovation Unit

Oluwaseun Falade-Nwulia, MBBS, MPH

Associate Professor

Associate Professor, Department of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Depression or Other Mental Illness, Substance Use
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys
 - Experiences analyzing quantitative and qualitative data
 - Experiences in patient/participant recruitment
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Falade-Nwulia Current Research Projects

- Ending the HIV Epidemic
 - Peer-supported collaborative care for mental health and substance use disorder care integration into HIV care settings
 - The goal of this project is to evaluate effectiveness while also gathering implementation data on an innovative adaptation of collaborative care, using trained peer-specialists as care managers in a team based approach to increasing engagement in mental health and substance use disorder care in HIV continuity care settings
- Support to RESTORE
 - Leveraging resources, connecting people
 - The goal of this award is to increase access to treatment for opioid use disorder by developing a learning collaborative of community based providers thus expanding capacity to initiate medications for OUD treatment and training peers to provide psychosocial support, and facilitate linkage to and retention in ongoing SUD treatment in community-based settings. ACCESS Telehealth With support from the Maryland department

Sherita Hill Golden, MD, MHS

Vice President and Chief Diversity Officer, Johns Hopkins
Medicine

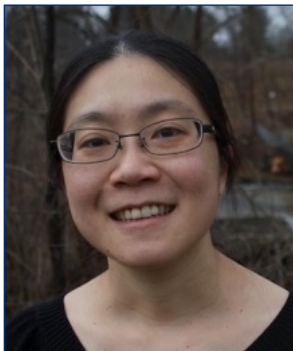

Hugh P. McCormick Professor of Endocrinology and Metabolism
Department of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Diabetes, Social Determinants of Health, Health System Equity Operations
- **Trainee Opportunities:**
 - Opportunities to write research publications
- **Desired Trainee Education Level:** Undergraduate and Masters students
- **Paid or Unpaid:** Paid

Golden Current Research Projects

- Health system health equity operational framework
 - PI: Risha Irvin
 - In publication phase
- Qualitative interview project with patients and clinicians to understand the drivers of identified JHHS health disparities connections
 - Goal: To target interventions
- Additional interest in projects at the Center for Transgender and Gender Expansive Health
 - Those interested should contact Dr. Fan Liang and/or Dr. Helene Hedien

Yea-Jen Hsu, PhD

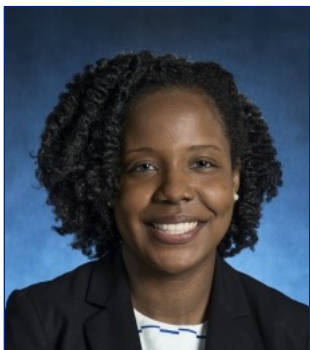

Associate Scientist, Department of Health Policy and Management

Johns Hopkins Bloomberg School of Public Health

- **Content Areas of Interest:** Social Determinants of Health, Methodology, Program Evaluation
- **Trainee Opportunities:**
 - Challenges and strategies of construction workers with race/ethnicity groups dealing with pain
 - Racial disparity in preoperative pain management
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Hsu Current Research Projects

- SUEDEHAT (Collaboration with Dr. John Jackson)
 - Aims to answer the question ‘how much do factors that clinicians and/or health systems can modify (i.e. ‘actionable’ processes) contribute to the difference in hypertension control between White and Black populations exist?”
 - Uses EMR data from the RICH LIFE project

Risha Irvin, MD, MPH

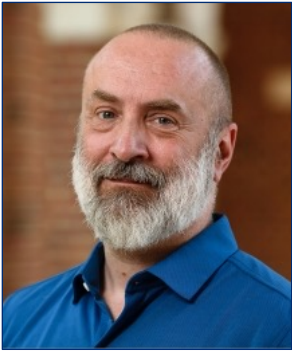

Associate Vice Chair for Diversity and Inclusion, Department of Medicine

Associate Professor of Medicine, Department of Medicine
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Social Determinants of Health, Health Disparities in Infectious Disease
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Irvin Current Research Projects

- The impact of Hepatitis C treatment on HIV/HCV co-infected and HCV mono-infected incarcerated person on HCV elimination

Theodore "Jack" Iwashyna, MD, PhD

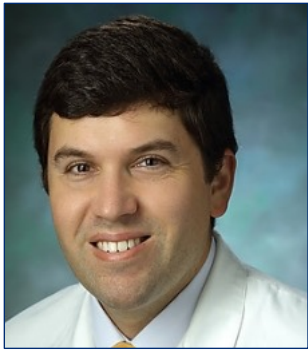

Bloomberg Distinguished Professor of Social Science and
Justice in Medicine

Johns Hopkins Bloomberg School of Public Health

- **Content Areas of Interest:** Social Determinants of Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Doctoral students
- **Paid or Unpaid:** Paid

Iwashyna Current Research Projects

- Developing a regulatory system to evaluate and reward equity in medical device functioning
- Understanding long-term outcomes after COVID, particularly financial outcomes and how those influence recovery
- Identifying and supporting practices that improve recovery after pneumonia

Seth Martin, MD, MHS

Director of the Advanced Lipid Disorders Program and Digital Health Lab, Ciccarone Center for the Prevention of Cardiovascular Disease

Professor, Department of Medicine

Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Undergraduate, Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Martin Current Research Projects

- AHA and PCORI projects on hybrid virtual cardiac rehabilitation
- AHA Collaborative project on digital health intervention for heart failure
- Collaborative project with Google on digital health for CVD prevention in Ghana

Edgar R. Pete Miller, MD, PhD

Professor, Department of Medicine
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Hypertension
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Masters students
- **Paid or Unpaid:** Unpaid

Miller Current Research Projects

- OK Study
 - The effects of a fixed dose ARB/CCB medication on dyskalemia in adults with hypertension in Bangladesh
- ARMS Study
 - The effect of arm position on blood pressure

Chiadi Ndumele, MD, MHS

Associate Professor, Department of Medicine
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Diabetes, Obesity, Social Determinants of Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Ndumele Current Research Projects

- UNLOAD-HF
- Projects on SDOH and COVID in ARIC

S. Michelle Ogunwole, MD, PhD

Assistant Professor, Department of Medicine
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Diabetes, Obesity, Maternal Health
- **Trainee Opportunities:**
 - Developing postpartum interventions to reduce obesity-related disparities and address environmental determinants of health
- **Desired Trainee Education Level:** Masters students
- **Paid or Unpaid:** Paid

Ogunwole Current Research Projects

- FEAST
 - HealthFul Eating in the Postpartum Period using Photovoice to Explore Neighborhood and Household food Environments of African American Mothers Developing Postpartum Interventions to Reduce Obesity-Related Disparities and Address Environmental Determinants of Health

Tanjala Purnell, PhD, MPH

Associate Professor, Department of Epidemiology
Johns Hopkins Bloomberg School of Public Health

- **Content Areas of Interest:** Cardiovascular Disease, Chronic Kidney Disease or Transplantation, Hypertension, and Social Determinants of Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Undergraduate, Masters, Doctoral, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Purnell Current Research Projects

- Patient, Family, and Community Stakeholder Strategies to Reduce Racial and Socioeconomic Disparities in Kidney Transplantation (Engaging patients, family, and community members in the development of novel programs to address social determinants)
- Novel Methods to Quantify Temporal Disparities in National Registries (Scientific Registry of Transplant Recipients and United States Renal Data System)
- Health Freedom Path to Wellness: A Culturally-Relevant and Patient-Centered mHealth

Somnath Saha, MD, MPH

Professor, Department of Medicine
Johns Hopkins School of Medicine

- **Content Areas of Interest:** Diabetes, Social Determinants of Health, Primary Care, Clinician-Patient Relationships
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
 - One-on-one mentoring and career development
- **Desired Trainee Education Level:** Undergraduate, Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid

Saha's Current Research Projects

- MC Squared
 - VA study including survey and clinical data from 100 PCPs and 1000 patients (Black and White) with diabetes in 4 cities, examining clinician attitudes towards caring for diverse patients.
- Opening the Black Box of Cultural Competence
 - Follow-up VA study with survey and clinical data from 50 PCPs and 400 patients with DM in 4 cities, along with transcribed recorded visits for each patient and 40+ post-visit qualitative interviews.
- Hidden in Plain Sight
 - Study to detect stigmatizing language in patients' medical records using NLP, evaluate differences in use of stigmatizing language by patient characteristics, and reduce stigmatizing language using implementation science strategies.
- CRISP COVID disparities project
 - Using statewide COVID registry to conduct ecological and patient-level analyses to examine the role of social determinants in explaining racial disparities in COVID testing, incidence, and outcomes.

Erica Shelton, MD, MPH, MHS, FACEP

Assistant Professor, Department of Emergency Medicine
Johns Hopkins School of Medicine

- **Content Areas of Interest:** Social Determinants of Health
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data, for those trained in qualitative interview techniques
- **Desired Trainee Education Level:** Doctoral students
- **Paid or Unpaid:** Paid

Shelton Current Research Projects

- Reflection on Our Past as We Embark on an Anti-racist Future
 - A Self-Study of Racism and a Path towards Reparative Justice in Johns Hopkins Hospital Emergency Department (part of the Inheritance Baltimore group based at the Homewood Campus)
- Health Impacts of Neighborhood Revitalization on East Baltimore Residents: A Mixed-Methods Analysis

Nakiya Showell, MD

Assistant Professor, Department of Pediatrics
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Cardiovascular Disease, Obesity, Social Determinants of Health, Maternal and Child Health
- **Trainee Opportunities:**
 - BUILD Project
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
- **Desired Trainee Education Level:** Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Paid

Showell Current Research Projects

- BUILDing Leaders and Developing Power for Health Through Food
- AFFIRME

Jessica Yeh, PhD

Associate Professor, Department of Medicine
Johns Hopkins University School of Medicine

- **Content Areas of Interest:** Diabetes, Hypertension, Obesity, Social Determinants of Health, Cancer
- **Trainee Opportunities:**
 - Experiences collecting data through participant surveys or focus groups
 - Experiences analyzing quantitative and qualitative data
 - Opportunities to write research publications
- **Desired Trainee Education Level:** Masters and Doctoral students, Post-Doctoral Fellows
- **Paid or Unpaid:** Unpaid, but possible that paid positions will arise

Yeh Current Research Projects

- Non-randomized clinical trial of weight loss in cancer survivors (ASPIRE)
- Evaluation of diabetes prevention and management programs (BMDRP)
- RICH LIFE
- MACCHE
- DASH in diabetes (DASH4D)
- COVID and incident diabetes (data analysis only)
